PRODUCT CLASSIFICATIONS

Medjool Dates have many great benefits as they contain large quantities of fibre, vitamins and minerals. When thinking of a natural nutritious sweetener or an instant energy source, fleshy Medjool dates are the number one choice.

These Dates are fruits that grow on palm trees (*Phoenix dactylifera*), and they have a medium to dark brown colour. They are rich in vitamins, fibre, minerals, antioxidants and potassium. Medjool dates are also known as the King of Dates, and they have been used to treat many diseases, such as cholesterol, and to strengthen our physical health, especially our bones and joints.
